

Your Lacework Partner

Redefining Application Security

🛡️ Enterprise Security

Unlock the Power of Contextual Security

In today's dynamic cloud landscape, security goes beyond simply identifying vulnerabilities. With Arctiq and Lacework, you gain the context you need to understand threats within your unique environment. This empowers you to move from reactive measures to anticipating, comprehending, and strategically addressing security risks – a new paradigm in application security where context reigns supreme.

Holistic Protection & Intelligent Insights

Elevate Your Application Security with Contextual Threat Detection & Insights

By prioritizing security from the very beginning (shift-left), Lacework empowers you to build applications with confidence. Its holistic protection secures applications throughout their life cycle (code to runtime), while intelligent insights help you understand and prioritize vulnerabilities based on real-world context. This translates to faster remediation and a more secure development process.

Holistic Protection

From source code to runtime, Lacework provides end-to-end security oversight, ensuring your applications remain robust against evolving threats.

Intelligent Insights

Beyond mere vulnerability identification, Lacework understands your infrastructure, offering actionable insights based on real-world context.

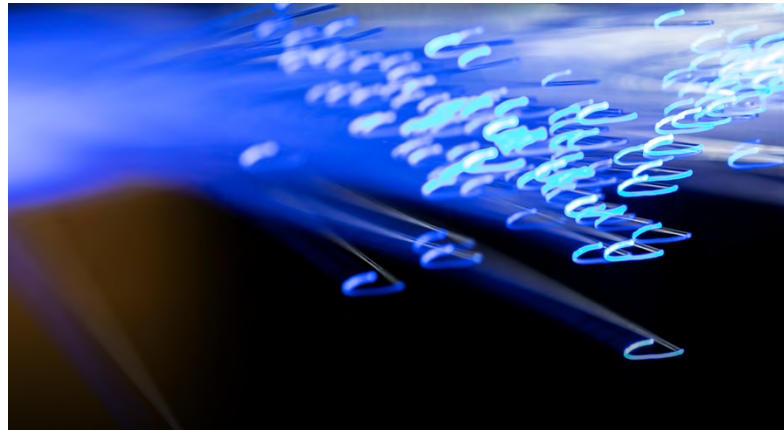

Shift-Left with Confidence

Integrate security early in the development life cycle, ensuring vulnerabilities are both identified and contextualized, allowing for targeted remediation.

Arctiq's Value Addition

Guided by years of expertise and driven by a passion for security, Arctiq stands with you on every step of your Lacework journey. From initial integration to ongoing refinement, our commitment is to ensure you realize the full potential of your investment in Lacework.

Tailored Configuration

Every organization has its nuances. Arctiq fine-tunes Lacework to align with your specific environment, maximizing its effectiveness.

Seamless Integration

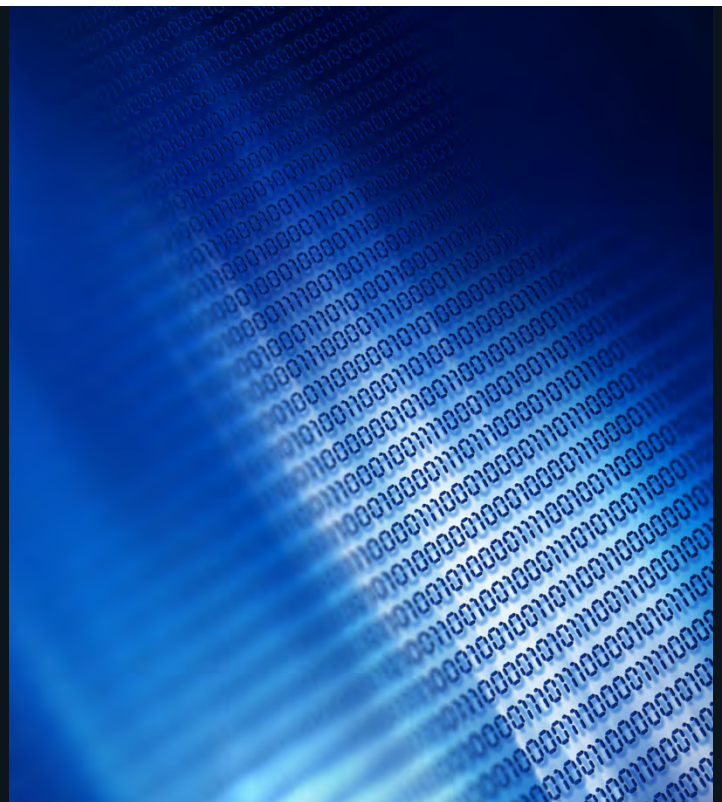

We ensure Lacework is harmoniously integrated into your CI/CD pipelines, cloud platforms, and existing security infrastructures.

Empowerment & Training

Arctiq offers hands-on training sessions, empowering your teams to harness Lacework's full potential, ensuring long-term security success.

Elevate Your Application Security with Arctiq and Lacework

Through its partnership with Lacework, Arctiq offers enhanced application security by providing contextual threat detection and actionable insights. This collaboration ensures that your applications are not only secure but also resilient against emerging threats. Lacework's advanced security platform, combined with Arctiq's expertise, enables comprehensive visibility into your cloud environment, pinpointing vulnerabilities and unusual activities with precision. With this partnership, organizations can achieve robust security postures, reduce risk, and maintain compliance more effectively, all while accelerating their development processes. Trust Arctiq and Lacework to elevate your security and protect your critical assets.
