ARCTIQ

Your Trusted Red Hat Partner

Architect Intelligence and Accelerate Adoption of Red Hat Tools and Solutions by Leveraging the Arctiq Advantage

Red Hat

≋ **Platform Engineering**

Architect Success with Arctiq

As a trusted North American Red Hat partner, Arctiq brings expertise in architecture, advisory services, integration, and project delivery, specializing in hybrid/multi-cloud deployments, CI/CD pipelines, and tooling integrations. By removing obstacles and facilitating smoother learning curves for new tools, Arctiq ensures clients can activate and leverage Red Hat technologies effectively. We have extensive experience:

- Facilitating OpenShift and Ansible Automation adoption
- Integrating Red Hat tools into diverse environments
- Fast-tracking adoption and skill maturity through our Red Hat Technology Acceleration Blueprints

Arctiq Acceleration Blueprints for Red Hat Technologies

Increase Red Hat Product Awareness and Adopt Repeatable Pattern Growth

Foundation

Discovery and architecture, educating customers on IAC practices, centralized & dynamic secrets, & centralized service catalog + implementation and hands-on work

Day 2 Ops

Enabling organizations to be fully onboarded and comfortable with the tooling beyond initial engagement

Integration

Make the tools part of the organizations everyday life by showing the true value through application and user integrations

Health Checks

Deep dive discovery sessions allow us to uncover improvement and focus areas laying a stronger foundation

Accelerator Lab

Solid foundation with up-to-date training content gives students the confidence to leverage tools post engagement

Technical Consulting

Integration is the next MVP (typically a Retainer block) focuses on automation, best practices and developer teams

Enhancing Your
Red Hat Experience

with Arctiq Solutions
